

- Lasts up to 60 Years
- Reduces Corrosion
- Quick Installation

ConduDisc®

Innovation. Reliability. Value.

Increase the reliability of your utility network while reducing downtime with SAE's **ConduDisc®** utility pole ground plate. The **ConduDisc®** ground plate virtually eliminates electrode corrosion and lasts up to 60 years -- the life of a utility pole. **ConduDisc®** offers many advantages:

- Extends the life of the grounding system
- Maintenance free
- Environmentally friendly
- High strength and reliability
- Easy installation

ConduDisc® is a conductive grounding plate that dramatically enhances the performance and longevity of utility pole grounding systems. It is sold in a ready to install package. The utility pole ground plate is designed and manufactured in compliance with the *CSA Standard C22.2 No. 41-13 and No. 65-13*; as such meets the ESA Technical Guideline for Section 6 "Approval of Electrical Equipment" with regards to Ontario Regulation 22/04 and the construction requirements of National Electrical Safety Code (American Standard).

The **ConduDisc®** can be used with or without **ConduFlow™** pourable backfill. When using **ConduFlow™** with the **ConduDisc®**, ensure that **ConduFlow™** is properly mixed and poured down the hole prior to installing the **ConduDisc®**.

Applications

- Power distribution
- Transmission and transformer grounding
- Telecom
