Technical Standards Committee "A" (Electric) has granted Acceptance to your products contained in Application 2018-77.

This acceptance does not relieve the manufacturer of any responsibility for the satisfactory performance of the item and its conformity to guarantees, specifications, or other provisions of contracts covering its sale. This acceptance is made with the further understanding that no changes in design or workmanship affecting the quality, strength, or electrical characteristics of the item will be made without the knowledge of the Technical Standards Committees. You are also asked to notify the Technical Standards Committees of any change in manufacturing plant location or locations.

Voice 202.720.1979  
Fax 202.720.7491

Sincerely,

NORRIS W. NICHOLSON  
Chair, Technical Standards  
Committee "A"
