CONDU DISC ELITE

The ConduDisc Elite is the ultimate in grounding protection. A **corrosion proof ground plate PLUS a conductive jacketed wire** that will together extend the life of any grounding system.

No other product can outlast the ConduDisc Elite!

The Corrosion Proof Ground Plate with Improved Safety Performance

ConduDisc Elite is a fully NEC compliant conductive grounding plate that dramatically enhances the performance and longevity of utility grounding systems while virtually eliminating electrode corrosion.

Published Date: November 2022

Applications

- Highly corrosive soil (containing Chlorides and Bromides)
- Wet and swampy areas
- Areas adjacent to heavy road salt usage
- Any region where grounding conditions are extra challenging
